

**§ 10.462 Licenses for master or mate of uninspected fishing industry vessels.**

(a) This section applies to licenses for masters and mates of all vessels, however propelled, navigating the high seas, which are documented to engage in the fishing industry, with the exception of:

- (1) Wooden ships of primitive build;
- (2) Unrigged vessels; and,
- (3) Vessels of less than 200 gross tons.

(b) Licenses as master or mate of uninspected fishing industry vessels are issued for either ocean or near coastal routes, depending on the examination completed. To qualify for an uninspected fishing industry vessel license, the applicant must satisfy the training and examination requirements of § 10.401(g) of this subpart.

(c) An applicant for a license as master of uninspected fishing industry vessels must have four years of total service on ocean or near coastal routes. Service on Great Lakes or inland waters may substitute for up to two years of the required service. One year of the required service must have been as licensed master, as unlicensed master, or as licensed mate or equivalent supervisory position while holding a license as master, mate, operator of uninspected towing vessels, or operator of uninspected passenger vessels.

(1) To qualify for a license of not more than 500 gross tons, at least two years of the required service, including the one year as master, mate or equivalent, must have been on vessels of over 50 gross tons.

(2) To qualify for a license of not more than 1600 gross tons, at least two years of the required service, including the one year as master, mate or equivalent, must have been on vessels of over 100 gross tons.

(3) To qualify for a license of over 1600 gross tons, but not more than 5000 gross tons, the vessel tonnage upon which the four years of required service was obtained will be used to compute the tonnage. The license is limited to the maximum tonnage on which at least 25 percent of the required service was obtained, or 150 percent of the maximum tonnage on which at least 50 percent of the service was obtained, whichever is higher. Limitations are in

multiples of 1000 gross tons, using the next higher figure when an intermediate tonnage is calculated. A license as master of uninspected fishing industry vessels authorizing service on vessels over 1600 gross tons also requires one year as master, mate or equivalent on vessels over 100 gross tons.

(4) The tonnage limitation on this license may be raised using one of the following methods, but cannot exceed 5000 gross tons. Limitations are in multiples of 1000 gross tons, using the next higher figure when an intermediate tonnage is calculated.

(i) Three months service as master on a vessel results in a limitation in that capacity equal to the tonnage of that vessel rounded up to the next multiple of 1000 gross tons;

(ii) Six months service as master on a vessel results in a limitation in that capacity equal to 150% of the tonnage of that vessel;

(iii) Six months service as master on vessels over 1600 gross tons results in raising the limitation to 5000 gross tons;

(iv) Six months service as mate on vessels over 1600 gross tons results in raising the limitation for master to the tonnage on which at least 50 percent of the service was obtained;

(v) Two years service as a deckhand on a vessel while holding a license as master results in a limitation on the master's license equal to 150% of the tonnage of that vessel up to 5000 gross tons; or,

(vi) One year of service as deckhand on a vessel while holding a license as master results in a limitation on the master's license equal to the tonnage of that vessel.

(d) An applicant for a license as mate of uninspected fishing industry vessels must have three years of total service on ocean or near coastal routes. Service on Great Lakes or inland waters may substitute for up to 18 months of the required service.

(1) To qualify for a license of not more than 500 gross tons, at least one year of the required service must have been on vessels of over 50 gross tons.

(2) To qualify for a license of not more than 1600 gross tons, at least one year of the required service must have been on vessels of over 100 gross tons.

(3) To qualify for a license of over 1600 gross tons, but not more than 5000 gross tons, the vessel tonnage upon which the three years of required service was obtained will be used to compute the tonnage. The license is limited to the maximum tonnage on which at least 25 percent of the required service was obtained, or 150 percent of the maximum tonnage on which at least 50 percent of the service was obtained, whichever is higher. Limitations are in multiples of 1000 gross tons, using the next higher figure when an intermediate tonnage is calculated.

(4) The tonnage limitation on this license may be raised using one of the following methods, but cannot exceed 5000 gross tons. Limitations are in multiples of 1000 gross tons, using the next higher figure when an intermediate tonnage is calculated.

(i) Three months service as mate on a vessel results in a limitation in that capacity equal to the tonnage of that vessel rounded up to the next multiple of 1000 gross tons;

(ii) Six months service as mate on a vessel results in a limitation in that capacity equal to 150% of the tonnage of that vessel;

(iii) Six months service as mate on vessels over 1600 gross tons results in raising the limitation to 5000 gross tons;

(iv) One year of service as deckhand on vessels over 1600 gross tons while holding a license as mate, results in raising the limitation on the mate's license to 5000 gross tons;

(v) Two years service as a deckhand on a vessel while holding a license as mate results in a limitation on the mate's license equal to 150% of the tonnage of that vessel up to 5000 gross tons; or,

(vi) One year of service as deckhand on a vessel while holding a license as mate results in a limitation on the mate's license equal to the tonnage of that vessel.

(e) Applicants may request an oral examination on the subjects listed in subpart I of this part.

[CGD 81-059, 52 FR 38623, Oct. 16, 1987, as amended by CGD 81-059, 54 FR 141, Jan. 4, 1989]

#### **§ 10.464 Licenses for operator of uninspected towing vessels.**

(a) Licenses are issued as operator or second-class operator of uninspected towing vessels. These licenses do not authorize service aboard uninspected towing vessels on a foreign voyage nor on those of more than 200 gross tons in ocean or near coastal service.

(b) Licenses as operator and second-class operator of uninspected towing vessels are endorsed for operation on one or more of the following geographic areas:

(1) Oceans (domestic trade) waters;

(2) Near coastal waters;

(3) Great Lakes and inland waters;

(4) Western rivers; or,

(5) A limited local area designated by the Officer in Charge, Marine Inspection.

(c) For a license as operator of uninspected towing vessels, an applicant must have one of the following:

(1) Three years of service including the following:

(i) Two years on deck of a vessel of 26 feet or over in length;

(ii) One year on deck on a towing vessel, with at least six months of training or duty in the wheelhouse of the towing vessel; and,

(iii) Three months of service in each particular geographic area for which application is made; or,

(2) Three years of service on towing vessels including the following:

(i) One year on deck, with at least six months of training or duty in the wheelhouse of the towing vessel; and,

(ii) Three months of service in each particular geographic area for which application is made; or,

(3) For a license endorsed for a limited local area, 18 months service on deck on a towings vessel within the local area, including at least three months of training or duty in the Wheelhouse of the towing vessel.

(d) For a license as second-class operator of uninspected towing vessels, an applicant must have:

(1) At least 18 months of service on deck, including 12 months on towing vessels. The service must include at least three months of training or duty in the wheelhouse of towing vessels and
